

# MD Opinions

MD Opinions gives you and your family access to second opinions and personalized, expert advice from medical professionals throughout your healthcare journey.

## Face any condition confidently with advice from experts.

### CONSULT

Whether over phone, text, or 1:1 video, members can ask real questions in an unrushed format. Even extended family members have access to MD Opinions.

### TREAT

Our physicians help members understand all treatment options and what to expect during upcoming office visits. They'll also provide insight regarding cutting-edge technologies and new pharmaceutical treatments.

### COORDINATE

TouchCare's partnership with MD Opinions provides members access to leading physicians as well as ongoing healthcare concierge services.

### Additional benefits:

- Leading physicians at top research hospitals in a variety of specialties and sub-specialties.
- Integration with TouchCare for seamless collaboration.
- Thorough cost savings and ROI analysis specific to your member population.

✓ \$0 copay

✓ Unlimited usage

✓ Outside of health plan

**“You need somebody  
you can speak with,  
who will review your  
diagnosis and tell  
you all the different  
options you have  
because you’re kind  
of in the dark.”**
